<i>Rush Orders</i>	<i>add 15%</i>

I am presently making fittings in Mountain Mahogany, (circocarpus ledifolus), African Blackwood, Ebony, Rosewood and Snakewood. I will use other woods on request. If you have a peg shape you like that you cannot presently find, I will copy it for a one time template fee and price per set we agree upon. Keep in touch as I am constantly adding new styles and items to this list. Allow 2 months for orders. Custom tailpiece lengths and shapes are no problem--for you, that is.
